

迴圈的中斷與連續

Break 敘述：流程

```
for (count2 = 2; count2 < count1; count2++) {  
    statement1;  
    statement 2;  
    if ((count1 % count2) == 0) {  
        statement3;  
        break;  
    }  
} statement 4;
```

continue 敘述：流程

```
for (count2 = 2; count2 < count1; count2++) {  
    statement1;  
    if ((count1 % count2) == 0) {  
        statement2;  
        continue;  
    }  
    statement 3;  
    statement 4;  
}
```
