

## 6-6-2 防火牆套件安裝

### ☀ 觀察 firewalld 是否啟動

```
# systemctl status firewalld.service
```

```
# setup
```

那些服務應被自動啟動？

```
[ ] ebtables.service
[ ] fcoe.service
[*] firewalld.service
[ ] firstboot-graphical.service
[*] gdm.service
[ ] gssproxy.service
[ ] initial-setup-graphical.service
[ ] initial-setup-reconfiguration.service
```

確定

取消

### ☀ 安裝 firewalld

◆ # yum -y install firewalld firewalld-config

◆ # systemctl start firewalld

◆ #systemctl enable firewalld

◆ # systemctl status firewalld
