

MIME 郵件範例

✿ 範例：Multipart/mixed

```
From: Nathaniel Borenstein
To: Ned Freed
Date: Sun, 21 Mar 1993 23:56:48 -0800 (PST)
Subject: Sample message
MIME-Version: 1.0
Content-type: multipart/mixed; boundary="simple boundary"
```

MIME 信件標頭

```
This is the preamble. It is to be ignored, though it
is a handy place for composition agents to include an
explanatory note to non-MIME conformant readers.
```

原RFC 822 信件內容

```
--simple boundary
  This is implicitly typed plain US-ASCII text.
  It does NOT end with a linebreak.
--simple boundary
Content-type: text/plain; charset=us-ascii
  This is explicitly typed plain US-ASCII text.
  It DOES end with a linebreak.
--simple boundary—
  This is the epilogue. It is also to be ignored.
```
